

'2017HS' (House & Senate) and '2017Jud' (Judicial) databases are identical, except that the '2017Jud' database includes 2016 Court of Appeals contests. The 'Data_Processing_Notes_2017HS.pdf' document applies to both.

All geography is based on 2010 TIGER/Line files. Infrastructure and Natural Features layers did not change since 2011, and can be downloaded from the NCGA web site. Geographic layers with the '2017Jud' field layout were never created, and therefore are not included here.
